Portfolio

Summary

B.Tech CSE student (CGPA: 9.3) with experience in full-stack web development and machine learning fundamentals. Skilled in Node.js, Express, MongoDB, and Python (Scikit-learn) for building web applications and ML models. Strong foundation in Data Structures, OOP, and DBMS. Seeking a software development internship.

Education

Qualification	School/College	Board	Year	Score
B.Tech CSE	Amity University Jharkhand	Amity University	2027	9.30 CGPA
Class XII	Ursuline Intermediate College	JAC	2022	90%
Class X	Ursuline Convent Girls High School	JAC	2020	88.20%

Experience

IBM SkillsBuild AI/ML Intern

June 2025 – July 2025

Edunet Foundation & IBM

Virtual

- Developed an **Employee Salary Prediction** project (GitHub Link) using supervised Machine Learning techniques.
- Utilized Python libraries including Pandas, NumPy, and Scikit-learn for data preprocessing, feature engineering, and model building.
- Gained practical understanding of Machine Learning workflows, AI concepts such as NLP and neural networks, and hands-on experience with **IBM Watson Studio** and cloud-based tools.

Projects

Festify – Event Destination Finder Web App

[GitHub](#)

Node.js, Express.js, MongoDB, EJS

- Built a full-stack web app using Node.js, Express.js, MongoDB, and EJS for discovering and managing event destinations.
- Implemented user authentication (sessions) with features to browse, filter, and view detailed venue listings.
- Developed an admin panel with CRUD operations and integrated Cloudinary for image uploads; deployed on Render.

TabCommander – Browser Productivity Extension

[GitHub](#)

JavaScript, Browser Extension API, HTML, CSS

- Built a Chrome extension for keyboard and voice-controlled tab management, enabling instant tab search, navigation, and session recovery.
- Reduced tab-switching time by ~40% through real-time search, tab grouping, and hands-free voice commands.
- Optimized performance using debounced search and efficient tab indexing with Chrome Extensions API and Web Speech API.

Technical Skills

- Programming Languages:** Python, C++, Java
- Web Development:** HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, Express.js
- Databases:** MySQL, MongoDB
- Tools & Platforms:** Git, GitHub, Visual Studio Code
- Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

Achievements

- Secured **Top 2%** among learners in **Fundamentals of Object-Oriented Programming** course by NPTEL.
- Finalist at **Innovate-A-Thon 3.0**, a Web3-focused national hackathon held at **BIT Mesra, Ranchi**, for developing an innovative problem-solving solution under competitive conditions.

Certifications

- Artificial Intelligence Fundamentals** – IBM SkillsBuild
- GfG 160: 160 Days of Problem Solving** – GeeksforGeeks
- Web Development** – Apna College
